No matter how old you get the months of May through August seem to have a "summer break" mentality that is hard to shake. This does not seem to be the case with the students enrolled in our courseware bundles. In June our students continued to earn industry certifications, complete programs, and get employed.

In June our students hit the following milestones:

#### **Industry Certifications**

**Earned:** 113

**Programs Complete:** 65

**Students Employed YTD:** 51

We want to let you know you can count on LearnKey being available to help you meet your educational and professional goals.

## CompTIA A+ 1002

The second half of the A+ series continues your journey as a virtual new hire at a computer repair shop, where you will learn about the software-related aspects of being an IT technician, with a heavy focus on operating systems, security, software troubleshooting, and

operational procedures.

Being employable means being able to support hardware and software issues. This course will help you do that.

For more information contact our [Enrollment Team](#).
